### **KOSSAH - Keeping Our Seniors ( and others) Safe at Home**

The Volunteers in Policing, at Slacks Creek Police Station, are offering the following valuable crime prevention service at no cost to you.

VIPs can also offer valuable practical tips for personal and property safety around your home.

#### **1. Engrave your personal belongs**

VIPs offer an engraving service at your residence, to provide additional protection for certain of your valuable belongings. Property engraving has been proven to be an effective deterrent to thieves because it impairs their ability to redeem the (engraved) stolen property for cash.

#### **2. Create an electronic record of personal belongings**

VIPs can attend your residence, on an appointment basis, and photograph property items of value and burn these images to a DVD, which may be retained by you as an accurate record of your valuable items and may be used for insurance purposes.

#### **3. Install safety screws on your car's number plates**

VIPs can also replace the screws on your number plates with safety screws. This is a free service offered under the Queensland Police Safe PL8 Program, which aims to reduce the number of registration plates stolen for use in crimes (eg petrol theft)

Should you wish to make an appointment to take advantage of any of these services, please contact the Volunteers in Policing at Slacks Creek between 8:00am and 9:00am on Tuesday or Thursday.
